New KY NEMSIS Requirements

In order to accommodate data collection for COVID-19, in the Commonwealth of Kentucky, you will need to relocate three elements to the "Crew>Crew Member" element set. Then, you will need to write a few rules to govern the application of these elements.

The following slides demonstrate how each of the three elements must be configured, and the rules that will govern them.

It is critically important to note that you cannot make ANY changes to the element, "eOther.04 – Crew ID." Our system will automatically populate this field as long as you have entered a State Credential in the user's profile.

All ePCR Industry Partners,

You may soon be contacted by Kentucky clients about new NEMSIS reporting requirements in light of the COVID-19 pandemic for the health and safety of our EMS providers. Effective immediately, we are requesting that each record include the below listed elements as REQUIRED for all incidents where a patient contact occurs.

eOther.03 Personal Protective Equipment Used
eOther.04 EMS Professional (Crew Member) ID
eOther.05 Suspected EMS Work Related Exposure, Injury, or Death
eOther.06 The Type of Work-Related Injury, Death or Suspected Exposure

We appreciate your assistance implementing these elements throughout your platform for Kentucky.

Sincerely,

-Drew
